TREASURES of TUT

THE STORY STARTED 3500 YEARS AGO SOMEWHERE ON THE WESTERN BANK OF THEBES IN EGYPT...

A boy king named TUT ANKH AMUN has died. His body was getting ready for the funeral in the final resting place in an underground tomb called 'The Tomb of Pharaoh'.

Immeasurable wealth, gold, precious stones, ornaments were kept for him to use in his after-life. People mourned, paid their homage to the king and the entrance of the tomb was sealed forever with the final words written on the wall of the tomb '**Death will come to those, who disturb the sleep of the pharaohs**'. The Pharaoh rested undisturbed for nearly 3500 years and on the afternoon of November 1922.

Howard Cater, a British archeologist discovered the hidden wall of intact tomb. He stumbled upon the opening of the tomb by chance. He was searching for this very missing TUT ANKH AMUN for last 20 years. He dug further in the dark, a sealed door obstructed him. It was the same seal put 3500 years ago.

Holding his breath, Carter made a small hole in the mud wall. The trapped air inside whooshed

past him. It was the same air breathed by the Generals of the king when they buried him. Slowly carter peeped inside the wall with a lit candle what he saw inside was unbelievable. In his own words.... " At first I could see anything , the hot air escaping from the chamber causing my candle flame to flicker, but presently, as my eyes grew accustomed to the light , details of the room within emerged slowly from the mist, strange animals, statues and gold- everywhere the glint of gold".

TODAY TUT ANKH AMUN IS ENDEARINGLY KNOWN WORLD OVER AS TUT.

**BUT DID CARTER DISTURB THE SLEEP OF PHARAOH AFTER 3500 YEARS ?
WHAT IS THE WORTH OF THE TREASURE OF TUT ?
IS HIS CURSE SERIOUS AND REAL ?
DID IT AFFECT CARTER AND HIS TEAM ?**

The Unsinkable TITANIC

At Oh!Max another amazing entertainment comes alive with the legendary ship called The Unsinkable Titanic. You will get a chance to witness the history, its making and its irony in its recreation at Oh!Max. It was considered unsinkable by its passengers and crew, as well as its builders. However, it took the lives of hundreds of people when it sank on its maiden voyage on April 14th, 1912. The aftermath of the romanticized sinking caused new regulations about ship safety, and films such as James Cameron's famous 1997 film "Titanic".
